

PRODUCT INFO:

- **Pleated Gas Filter Cartridges:** made from impregnated filter papers, polyester filtration media, synthetic nonwoven materials, and metallic wire mesh media.
- **Seal type:** PE

GENERAL DESCRIPTION:

- **Application areas:** Removal of particulate matter and liquid droplets in process systems for the production, treatment, and utilization of industrial gases, including air, oxygen, nitrogen, ammonia, and others.

We manufacture and supply equivalent replacement filter cartridges designed to match the performance and dimensions of the original filters supplied with the equipment.

FILTER CARTRIDGES FOR INDUSTRIAL GASES

TYPE	AIR PERMEABILITY	PRESSURE DROP (PA)	FILTRATION EFFICIENCY
Pleated Gas Filter Cartridges	50 – 500 l/m ² /sec	200	5 – 300 µm
