

PRODUCT INFO:

- Accordion-type overspray collection filter manufactured from asymmetrically perforated recycled paper.
- Designed for the removal of paint droplets and overspray in paint spray booths and spray finishing systems. The paint collection principle is based on the airflow effect created by the asymmetrical perforation pattern of the filter media.
- Its high paint-holding capacity ensures a long service life while maintaining low maintenance costs.
- **Operating temperature:** max. 100 °C
- **Recommended final pressure drop:** 128 Pa
- **Disposal:** can be disposed of in incinerators or municipal waste landfill
- **Warranty:** valid for the entire service life of the filter
- **Applications:** filtration systems for paint spray booths and spray finishing lines, used either as a standalone filter or as a pre-filtration stage.

FLOOR PRE-FILTER ANDREAE STD

Product	Width (mm)	Height (mm)	Thickness (mm)	Average separation efficiency (%)	Recom. final diff. pressure (Pa)
STD 75	750	13500	65	90 - 98	128
STD 90	900	11000	65	90 - 98	128
STD 100	1000	10000	65	90 - 98	128
STD 120	1200	8000	65	90 - 98	128
